IR-2002 Internet radio with media player

LAN/WLAN CONNECTION

APP CONTROL

IR-2002 - Internet radio is the future. That's why the IR-2002 internet radio is the ideal product for radio reception anywhere in your house. Simply log in at your local WiFi or connect with your Network and unlock the gate to a world of 'Radio Brasil', 'Suisse Klassik' and many more.

Over 18000 channels around the world

News, sports, music, local or just a podcast, with the IR-2002 internet radio, you can receive every single channel. With over 18,000 available radio stations and more than 10,000 podcasts, you always have the right mission, regardless of your PC and the current location.

Easy app control

The operation of the IR-2002 is easy. All you have to do is to download the application at your tablet or smartphone, log in, and connect to the same network as IR-2002.

Playing your own music

The IR-2002 internet radio offers an AUX input, which means that you can easily connect your smartphone, tablet or MP3 to the IR-2002 and listen to your own favorite albums, in a maximum output power of 5 Watt (RMS)
